Grad mozaika

1500 godina stari mozaici u Eufrazijevoj bazilici još su jedan poticaj za suvremeni izričaj porečkih autora i majstorima. Ističemo primjer Društva za skrb i promicanje održivog korištenja kulturne baštine koje se već gotovo desetljeće bavi proučavanjem mozaika, organiziranjem simpozija i edukacijom. Međunarodna kolonija izrade mozaika Mosaic city održava se uvijek početkom svibnja. Budite tvorac svoga mozaika od ideje do suvenira koji će vas zauvijek podsjećati na Poreč!

Nanovo otkrivena tura skulptura proteže se sve do Vrsara, našom blagom i nadahnujućom obalom. Otkrijte skulpture uz rekreaciju pješice ili biciklom. Pronađite umjetnost među šetačima i dodirnite ju!

Turizam / Tourism

Sredinom 19. stoljeća našli smo se na turističkoj rutu koju je otvorilo Austrijsko parobrodsko društvo Lloyd iz Trsta, što je već 1845. rezultiralo tiskanjem prvog turističkog vodiča s opisom i slikama grada. Kad je austrougarska aristokracija otkrila Poreč 1866. to ga je učinilo vidljivim široj javnosti. Grad je krajem 19. stoljeća dobio kazalište i prvo kupalište na otoku Sv. Nikola – Bagno Parentino. Službeno je to bio početak turizma u ovom kraju. Najstariji hotel Riviera, izgrađen 1910. godine, ujedno i zaštitni znak grada i turizma, imao je 70 soba, 4 apartmana, 4 kupaoznice, poštanski ured, telefon i garažu. U prvom pamfletu tiskanom za potrebe hotela nudilo se "...morsko ljetovalište i lječilište južno od Trsta, zaštićeno od bure i bez komaraca".

Otada se nastavlja investirati u gradnju novih hotela i u sportske terene i sport pa Poreč od početka svog turističkog razvoja slovi najvećim sportsko-rekreacijskim turističkim odredištem u Hrvatskoj.

Čvrsti temelji današnjeg porečkog turizma postavljeni su osnivanjem dvaju velikih hotelsko-turističkih poduzeća Riviere / danas Valamar (1953.) i Plave lagune (1957.), koja sve do danas uspješno vode porečku i hrvatsku turističku scenu. Već u 1970-ima Poreč je jedan od glavnih centara hrvatskog turizma, broj noćenja brojao se milijunima, a njegova je turistička infrastruktura bila raštrkana duž 37 kilometara obale između Mirne i Limske kanala. Turizam je otvorio nove mogućnosti zarade, što je privuklo stanovništvo iz unutrašnjosti Istre i drugih krajeva. Time se mijenja kulturna slika grada, a osobni standard Porečana naglo je porastao. Sve je manje vremena za poslove koji ne donose izravnu dobit. Poreč se postupno pretvorio u jedan od najrazvijenijih gradova u tadašnjoj Jugoslaviji.

U 2018. godini u Poreču zabilježeno je 3,4 mil. noćenja.

In the middle of the 19th century, Poreč found itself on a tourist route opened by the Austrian Lloyd steamship company from Trieste. Consequently, the first travel guide with descriptions and pictures of the city was printed as early as 1845. When the Austro-Hungarian aristocracy discovered Poreč in 1866, the town became more visible to the general public. At the end of the 19th century, Bagno Parentino, the first town beach on the island of St. Nicholas, and the city theatre were built, officially marking the beginning of tourism in this area. Hotel Riviera, a trademark of the city and tourism, and the oldest hotel in Poreč, was built in 1910, providing 70 rooms, 4 suits, 4 bathrooms, a post office, a telephone, and a garage. The first pamphlet printed by the hotel advertised "...a seaside resort and spa just south of Trieste, sheltered from bora, with no mosquitos". Since then, investments in the construction of new hotels, sports grounds, and sports in general continue, making Poreč the biggest sport and recreational tourist destination in Croatia from the beginning of its touristic development. The solid foundations of present-day tourism in Poreč were laid down when Riviera (today's Valamar) and Plava laguna were established in 1953, and 1957 respectively. These two major hotel companies have been successfully leading both Poreč's and Croatia's tourist scene to date. In the 1970s, Poreč was already one of the main centers of Croatian tourism, with millions of overnight stays, with a tourist infrastructure scattered along 37 kilometers of coastline between Mirna and the Lim Channel. Tourism created new opportunities for profit, which attracted the population from mainland Istria and other regions. This changed the cultural make-up of the city, while the personal standard of Poreč's citizens grew rapidly. There was less time for jobs that did not generate direct profit. Poreč gradually turned into one of the most developed cities in former Yugoslavia. In 2018, there were 3.4 million overnight stays in Poreč.

Klaster / Brought to you by...

U okviru projekta I-Archeo.S. uspostavio se javno-privatni klaster, sastavljen od ustanova, poduzeća, organizacija, udruga i poduzetnika. Porečki je klaster objedinio velike i male dionike u namjeri osmišljanja i ostvarivanja novih kreativnih kulturno-turističkih proizvoda na području Poreča.

Within the I-Archeo.S. project, a public-private cluster has been established, consisting of institutions, companies, organizations, associations, and entrepreneurs. The Poreč cluster has united both big and small participants in order to design and create new creative cultural-tourist products in the area of Poreč.
